

Contents INTERCOH-2005

T. Kusuda, H. Yamanishi, J. Spearman and J.Z. Gailani, 2008, Sediment and Ecohydraulics, Elsevier, Proc. in Marine Science, 9, ISMB: 978-0-444-53184-1.

R. Kirby, R. Wurpts and N. Greiser Emerging concepts for managing fine cohesive sediment.	1
A. Kaya, H. Yoshida, H. Tanigawa, H. Igata and H. Tsuruya Estimation of Vertical Slice of Bottom Density Profile through Analysis of Ultrasonic	17
S-W. Kang, D-Y. Lee and K-S. Park Estimation of resuspension source of dredged sediment.	31
K. Arai A sea-surface-temperature estimation method for ocean areas and seasons using a geographic information system as a neural network.	43
N. Gratiot and A.J. Manning Flocculation process in concentrated benthic suspension layer (CBS) using a laboratory diffusive turbulent grid tank.	53
K. Yamamoto, K. Yokoyama, S. Takashima and S. Abe Behavior of the Turbidity Maximum Relating to the Density Current in the Tidal River.	69
O.H. Chong, Y. Koibuchi, S. Sato and M. Isobe Study on change of bottom topography and sediment characteristics around a reclaimed land in Sanbanze.	83
W. Jacobs, W.G..M. van Kesteren and J.C. Winterwerp Strength of sediment mixtures as a function of sand content and clay mineralogy.	91
S. Adam, A. De Backer, S. Degraer, J. Monbaliu, E.A. Toorman and M. Vincx Sediment characterization of Intertidal Mudflats using Remote Sensing.	109
Y.H. Zhu, P.J. Visser and J.K. Vrijling Soil Headcut Erosion: Process and Mathematical Modeling.	125
P. Le Hir, P. Cann, B. Waeles, H. Jestin and P. Bassoulet Erodability of natural sediments: experiments on sand/mud mixtures from laboratory and field erosion tests.	137
Y. Nakagawa and H. Yoshida Field observation and modeling suspended fine sediment load in Ariake Bay, Japan.	155
H. Samadi-Boroujeni, M. Fahti-Moghaddan, M. Shafaie-Bajestan and H. M. Vali-Samani Modelling of Sedimentation and Self-Weight Consolidation of Cohesive Sediments.	165
A.J. Manning The development of algorithm to parameterise the mass settling flux of flocculated estuarine sediments	193

B.Camenen Settling velocity of sediments at high concentrations.	211
Q.H. Zhang and J-F. Zhang Modeling of 3D Fractal Mud Floccs Settling via Lattice Boltzmann Method.	227
D. Ditschke and M. Markofsky A Time Dependent Flocculation Model.	241
P.J.T. Dankers,G..C. Sills and J.C. Winterwerp On the hindered settling of highly concentrated mud-sand mixtures	255
F. Mietta, F. Maggi and J.C. Winterwerp Sensitivity to floc breakup functions in a Population Balance Equation for cohesive Sediments	275
Q. He, J. Tang and J.Cheng A Study of in Site Floc Size in Turbidity Maximum, Yangtze estuary, China	287
M. Jain, A. Mehta, E. Hayter and J. Di Fine Sediment Resuspension and Nutrient Transport in Newnans Lake, Florida.	295
N.C. Don, H. Araki, N. Thi Minh Hang and H. Yamanashi Numerical simulation of water quality and sediment transport in the Ariake Sea, southwestern Japan	313
J-C. Chai, S. Hayashi and H. Yamanishi Effect of the shape of submerged dike/mound on mud transport.	329
N.K. Ganju and D.H. Schoellhamer Lateral variability of the estuarine turbidity maximum in a tidal strait.	339
M.A.J. de Nijs, J.C. Winterwerp and J.D. Pietrzak SPM variation in a harbour basin.	357
M. Soltanpour, S.A. Haghshenas and T. Shibayama An Integrated Hydrodynamic Model on Muddy Coasts.	379
C. Schweim and J. Koengeter Modelling Erosion of Fine Sediments and the Influence of Time-variable Resistance.	391
J. Spearman and A.J. Manning On the significance of mud transport algorithms for the modelling of Intertidal Flats.	411
F. Cayocca, P. Bassoulet, P. Le Hir, H. Jestin and P. Cann Sedimentary processes in a shell fish farming environment; Mont Saint Michel Bay, France.	431
H. Weilbeer Numerical simulation and analyses of sediment transport processes in the Ems-Dollard estuary with a three-dimensional model.	447
D.H. Schoellhamer, N. Ganju, P.R. Minaert and M.A. Lionberger Sensitivity and spin up times of cohesive sediment transport models used to simulate bathymetric change.	463

B. Waeles, P. Le Hir and P. Lesueur

A 3D morphodynamic process-based modelling of a mixed sand/mud coastal environment:
the Seine estuary, France.

477
